APOS Live Data Gateway
Unlock Live Data for SAP Analytics Cloud, SAP Lumira & SAP Analysis Office

The APOS Live Data Gateway is a data connection and data transformation solution that enables live data connectivity and expanded data source options for SAP Analytics Cloud, SAP Lumira, and SAP Analysis Office.
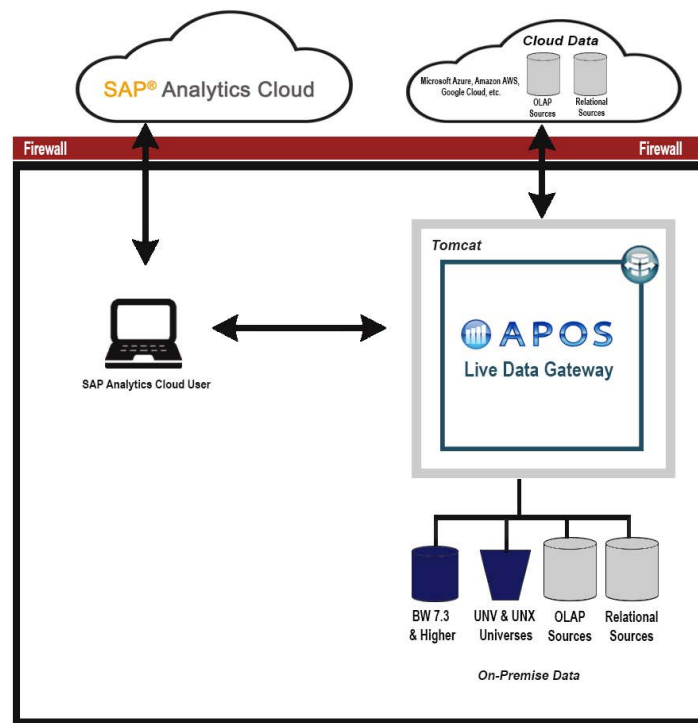

Unlock Live Data for SAP BI

Unlocking Live Data means:

- Expanded enterprise data connectivity options
- Simplifying user experience and data discovery
- Selecting data with greater flexibility
- Enforcing strong information governance and security
- Simplified deployment options

SAP Analytics Cloud Live Data Connectivity

The **APOS Live Data Gateway** provides **live data connectivity** from SAP Analytics Cloud to an expanded set of **on premise** and cloud-based data sources, giving you:

- Data never leaves the firewall
- No need for data replication or upload
- No need to re-create or duplicate data models or security models
- Data is always current – live connection to live data

*Extend Live Data Connectivity, Expand Data Source Options for Your SAP BI Projects.*

APOS Live Data Gateway

Unlock live Data for SAP Analytics Cloud, SAP Lumira & SAP Analysis Office

SAP Lumira & SAP Analysis Office Live Data Connectivity

Use the APOS Live Data Gateway for extended live data connectivity. Unlocking Live Data means:

- Using the Discovery web client- no need to install Lumira desktop
