## APOS Migrator for SAP® Crystal Reports® 2011 and 2013 Simplifies and Automates Report Migration to SAP Crystal Reports for Enterprise

**Las Vegas - October 23, 2013** - APOS Systems Inc., a leading provider of well-managed business intelligence (BI) solutions for SAP® BusinessObjects™ solutions, announces the availability of its new APOS Migrator for SAP Crystal Reports® 2011 and 2013. The product allows users to scan their system for objects in SAP Crystal Reports 2011 and 2013s, select them, specify new database connections in bulk, and convert them in bulk to objects in SAP Crystal Reports for enterprise. The Migrator also gives users the option to replace the existing report, rename the new reports, or move the new reports to a different folder.

The APOS Migrator for Crystal Reports 2011 and 2013 joins a set of migration-focused APOS Migration Accelerator products designed to simplify, automate and accelerate migration to the latest 4.0 and 4.1 releases of SAP BusinessObjects BI solutions.

"The APOS Migrator for Crystal Reports 2011 and 2013, like other APOS Migration Accelerator products, allows migration planners and administrators to automate time-intensive and labor-intensive migration tasks, removing uncertainties from the migration planning process, and liberating resources to tackle higher-ROI tasks," said Ofir Gil, chief technical officer, APOS. "Now these organizations can move forward more rapidly with their migration plans and experience the many benefits delivered by the latest 4.0 and 4.1 releases of SAP BusinessObjects BI solutions."

For more information on the APOS Migrator for Crystal Reports 2011 and 2013 and other APOS Migration Accelerator products, visit: http://www.apos.com/content/bi4-upgrade-resources. For more information, visit APOS Systems in booth 103 at SAP TechEd Las Vegas, being held Oct. 21-25.
