

Live Data Gateway from APOS Systems Now Available for Trial and Purchase on SAP® App Center

By integrating with SAP® Ariba® solutions, Live Data Gateway delivers virtualized connectivity to data from the source-to-pay suite

Kitchener, Canada — January 06, 2020 — APOS Systems today announced that its [Live Data Gateway for SAP® Ariba®](#) solutions is now available for trial and online purchase on [SAP® App Center](#), the digital marketplace for SAP partner offerings. Live Data Gateway integrates with SAP Ariba solutions and delivers virtualized connectivity to data from SAP Ariba solutions, SAP Analytics Cloud, and other data management technologies such as SAP Data Warehouse Cloud and SAP HANA®. With Live Data Gateway, analytics users are now able to access analytical reporting, contract workspaces, external approval, procurement operational reporting, sourcing operational reporting, spend analysis, and supplier data within SAP Ariba solutions.

"Highly valuable data exists within SAP Ariba solutions, and SAP Analytics Cloud is a powerful analysis solution for turning that data into clear analytics for actionable information and effective business decisions," explained APOS COO Allan Pym. "We are pleased that Live Data Gateway is now available on SAP App Center to provide effective data connection and transformation processes to enable these valuable analytics for customers."

Live Data Gateway provides a unified, single view of data from SAP Ariba solutions that can be used for a range of scenarios and applications such as SAP Analytics Cloud, SAP HANA, SAP HANA® Cloud, and SAP Data Warehouse Cloud. The API extraction engine and data caching repository minimize stress on the endpoint API provider within SAP Ariba solutions, while dramatically enhancing performance with optimized, efficient query responses for SAP Analytics Cloud.

At SAP App Center, businesses can discover approximately 1,600 innovative partner solutions that integrate with and extend SAP solutions. There, customers can find the SAP-validated partner apps they need to grow their business. And for each purchase made on SAP App Center, SAP will plant a tree. Find, try, and buy SAP partner solutions digitally at www.sapappcenter.com.

APOS Systems Inc. is a partner in the SAP PartnerEdge® program. As such, it has access to tools, training, resources and benefits that partners need to deliver the solutions and services customers demand. The SAP PartnerEdge program supports partners to facilitate building high-quality, disruptive applications focused on specific

business needs – quickly and cost-effectively. The program provides access to all relevant SAP technologies in one simple framework under a single, global contract.
